

Humber and North Yorkshire Cancer Alliance

Upper GI Cancer Network Group

4th September 2026 – 11.30 - 13:30

Via MS Teams (meeting will be recorded – please inform the Chair with objections)

Key Deliverables

- **National Cancer Audit Recommendations: 65% of patients with non-metastatic pancreatic cancer (stages 1-3) and 35% of patients with metastatic (stage 4) pancreatic cancer receiving disease targeted treatment.**
- **National Cancer Audit Recommendations: Reduce the number of patients with OG cancer waiting more than 62 days from referral to curative treatment, by identifying and implementing quality improvement interventions to improve speed and efficiency of treatment planning and delivery.**
- **MDT Streamlining: Process improvements and Standards of Care (SoC)**
- **Research Trials: BEST4 Screening Research Trial, VALUE Trial:**
- **Pathway analysis for 28 and 62 days where target not being achieved**
- **CPES Deep Dive and Action Plan**
- **Referral Form Optimisation – Standardised form across HNY**
